## Indirect Tax Specialist

We have been on the front lines helping to shape the future of the automobile for over a century. Our products enhance vehicle comfort, safety and efficiency. Brose makes sure of this by investing eight percent of its revenue in research and development. Whether lightweight design, electronically commutated motors or door and seat systems: a wide range of patents underscores the innovative strength of our international, interdisciplinary teams.

Brose has been present in the Czech Republic since 2003 with plants in Kopřivnice and Rožnov pod Radhoštěm. With approximately 3,500 people in production, product development and administration, Brose CZ is currently the largest production facility of Brose Group.

Brose is the world's fourth-largest family-owned automotive supplier. Our mechatronic systems for doors, seats or electric motors and drives can be found in every second new vehicle around the world today. Around 80 automobile manufacturers, over 40 suppliers and 50 e-bike manufacturers rely on our efficiency and performance. About 25,000 employees work for Brose at 65 locations in 24 countries and generated 6.2 billion euros turnover in 2019.
