

Belgrade

Process Engineer for Joining Technology (m/f/d)

As a worldwide growing family owned company, the Brose-Group offers performance oriented and experienced employees, willing to contribute to the company's further success, to take over responsibility and pursue attractive career opportunities

Your Job Specification

- Selection of suitable joining technology for electronic systems, considering technical and commercial requirements
- Planning, scheduling and steering of trials / tests for joining technology, as well as support for industrialization and series production
- Assessment, development and introduction of new assembly technologies, definition of technology requirements, process standards and guidelines
- Acting as a contact person within the company for electronics joining technology related questions / issues
- Active participation in customer presentations, patent research and process design FMEAs

Your Profile

- Successfully completed degree in electronics engineering, mechatronics, physics, material science or comparable qualification
- At least 4 years experience within electronics development, preferably within the automotive industry
- Sound knowledge of joining technologies for mechatronic and power electronic systems
- Experience in the area of electronics manufacturing technology, e.g. soldering (SMT and THT), conformal coating, press-fit
- Knowledge about electrical components and printed circuit board technology
- Fluency in English

Your advantages:

A modern working environment and a wide range of benefits. We also offer performance-based compensation and attractive social and additional benefits. Modern workplace concepts, comprehensive training opportunities make the offer complete.

Brose is the world's fourth-largest family-owned automotive supplier. Our mechatronic systems for doors, seats or electric motors and drives can be found in every second new vehicle around the world today. Around 80 automobile manufacturers, over 40 suppliers and 50 e-bike manufacturers rely on our efficiency and performance. About 25,000 employees work for Brose at 65 locations in 24 countries and generated 6.2 billion euros turnover in 2019.
