

Belgrade

Development Manager (m/f/d)

As a successful family-owned company on a path to global growth, the Brose Group offers challenging responsibilities and exciting career opportunities to performance-driven, skilled specialists with solid professional knowledge and proven career expertise who wish to contribute to our company's success.

Your Job Specification

- Management of assigned employees based on the Brose management principles
- Independent capacity planning for their area of responsibility
- Responsibility for project scheduling in their area of responsibility
- Coordination of the design/component development work as well as environmental testing & reporting, internally and externally, worldwide in consultation with the supervisor
- Monitoring and evaluating the tasks assigned to the team with regard to the deadline, technical content, feasibility and costs
- Responsible for the functioning of the CAX performance interfaces and test equipment in their area of responsibility (internal/external)
- Responsibility for complying with the internal development processes (PDP) in the area of responsibility
- Ensuring the continuous improvement process: Acquisition and documentation of findings (e.g. benchmark, trade fair contacts, know-how feedback from series production, knowledge management) with subsequent implementation in innovative technical solutions
- Independent implementation of all necessary measures and arrangements for occupational health and safety and environmental protection

Your Profile

- Successfully completed technical Bachelor's or Master's degree, mechanical or electrical engineering or equivalent knowledge
- Several years of relevant experience in the development of the automotive (supplier) industry with customer contact
- Ability to make decisions on all development-relevant processes within the scope of the tasks.
- Sense of responsibility for achieving the quality and cost objectives within the technical definition with the risk of high financial consequences in case of errors in the process or product
- Profound knowledge in project management and development processes
- Knowledge of business administration
- Knowledge and motivation to guide and develop people
- Fluent English language skills

Brose is the world's fourth-largest family-owned automotive supplier. Our mechatronic systems for doors, seats or electric motors and drives can be found in every second new vehicle around the world today. Around 80 automobile manufacturers, over 40 suppliers and 50 e-bike manufacturers rely on our efficiency and performance. About 25,000 employees work for Brose at 65 locations in 24 countries and generated 6.2 billion euros turnover in 2019.
