

New Boston

Programmer

As a successful family-owned company on a path to global growth, the Brose Group offers challenging responsibilities and exciting career opportunities to performance-driven, skilled specialists with solid professional knowledge and proven career expertise who wish to contribute to our company's success.

Your Job Specification

- Consistent improvements on assembly equipment by making programming changes in the PLC or other systems to reduce cycle time and increase reliability
- Developing and changing of automation processes through programming the PLC
- Implementing additional vision systems and scanners, setting up communication to the main PLC and integrating it into the code
- Provide higher level of support for maintenance technicians during break down situations through troubleshooting methods
- Developing and executing training for development of other team members

Your Profile

- Formal apprenticeship program in Mechatronics or similar or Technician with additional extensive technical education and trainings
- Three years experience in a maintenance related field of a series production company; preferably in the automotive field and focused in automation tasks such as PLC and HMI programming
- Mechanical aptitude and advanced knowledge of processes including pneumatics and hydraulics
- Advanced knowledge in troubleshooting and diagnosing electrical circuits
- Ability to program robotics such as ABB and UR

Brose offers a high-tech work environment and a wide range of benefits. Along with competitive performance-based compensation and health insurance, our employees also benefit from attractive social and family-oriented programs throughout our North American locations*. Our benefits packages include comprehensive medical, insurance and retirement plans. Brose also provides educational assistance and a variety of community outreach, family, and sporting events. Flexible working hours and a collaborative work environment give our employees the freedom to balance work and personal life. Brose believes in investing in people. We offer a wide range of development programs with great opportunity for individual growth through training, international or regional assignments and tailored career paths. Our objective is to provide our employees the tools necessary to live a balanced life, experience a rewarding work environment and contribute to our surrounding communities.

Brose is the world's fourth-largest family-owned automotive supplier. Our mechatronic systems for doors, seats or electric motors and drives can be found in every second new vehicle around the world today. Over 80 manufacturers and 40 suppliers rely on our efficiency and performance. About 26,000 employees at 63 locations in 23 countries guarantee quality and innovation.
