

Welcome to Brose: 65 Young Professionals Begin Their Vocational Careers

41 young talents are starting their apprenticeships at Brose. Michael Stammberger, Head of Apprenticeship (front row, left), welcomes them on their first day.

Coburg (01. September 2025) In 2025, Brose is welcoming 65 young professionals worldwide. At our German locations in Coburg, Bamberg/Hallstadt, Würzburg, and Berlin, 41 young talents are starting their apprenticeship or dual study programs. An additional 24 apprentices are beginning their careers as mechatronics technicians or industrial mechanics in Slovakia, the Czech Republic, and the USA.

In Germany, the distribution of apprentices is as follows:

- Coburg and Bamberg/Hallstadt: 23 apprentices
- Würzburg: 12 apprentices
- Berlin: 2 apprentices

Brose offers vocational training in five industrial-technical occupations and three commercial fields. In addition, three students will begin a dual study program in mechanical engineering and mechatronics on October 1. One apprentice is also starting vocational training as a cook in Brose Gastronomy.

"We are pleased to welcome our new apprentices and dual students to Brose," says Michael Stammberger, Head of Apprenticeship at the Brose Group. "As an internationally operating family-owned company, we offer them solid professional qualifications, hands-on experience, opportunities for international assignments, and the chance to further develop their personal strengths."

Apply Now for 2026

The application phase for vocational training and dual study programs starting in 2026 is already underway:

- Start of vocational training: September 1, 2026
- Start of dual study programs: October 1, 2026
