

Brits

Plant Manager

As a successful family-owned company on a path to global growth, the Brose Group offers challenging responsibilities and exciting career opportunities to performance-driven, skilled specialists with solid professional knowledge and proven career expertise who wish to contribute to our company's success.

Your Job Specification

- Define, coordinate and control the activities of the Production, Logistics, Quality and Technical Functions departments
- Monitor and take the necessary actions to keep all departments within budget and ensure that the annual business plan results are achieved
- Develop and implement new and improved working methods to improve functionality and efficiency in all departments
- Comply with the health and safety regulation as a section 16.2 appointment (Assistant to the MD) for Brits plant 1 and 2
- Develop and implement activities to increase customer satisfaction. Ensure all customer supply requirements are met
- Initiate and monitor cost reductions activities
- Oversee all engineering change management, project management and localization activities
- Ensure all activity, management and reporting functions are done as required internally and by Brose
- Lead the Brose Productivity System (BPS) implementation

Your Profile

- Engineering diploma
- MBA
- Min 10 years' experience in the Automotive industry with experience of project management, manufacturing, logistics and quality

Your advantages: a modern working environment and a wide range of benefits. These include a company provident fund, medical aid fund, annual bonus, company car and cellphone allowance. A modern workplace and training opportunities makes the offer complete.
