## Quality planner at the electronics development department

Brose is the fourth-largest family-owned automotive supplier. Every second new car worldwide is equipped with at least one Brose product. The company's intelligent solutions for vehicle access and interiors provide greater comfort and flexibility. Innovative concepts for thermal management increase efficiency and contribute to environmental and climate protection. Brose's systems understanding enables new functions in all kinds of vehicles - whether on four or two wheels. Around 25,000 employees at 65 locations in 24 countries generated a turnover of 5.1 billion euros in 2020.

### Job description

- Independent planning and preliminary quality planning (SQR, APQP) with suppliers for the purpose of own electronics production
