

Auburn Hills, MI

Technical Product Design Apprentice

As a successful family-owned company on a path to global growth, the Brose Group offers challenging responsibilities and exciting career opportunities to performance-driven, skilled specialists with solid professional knowledge and proven career expertise who wish to contribute to our company's success. Product Design is a key element in innovation and sustainability in the automotive industry. Designers are the glue bridging the gaps between engineers, customer teams, and testing. At Brose as an apprentice, your daily tasks will consist of training to design systems and products of the future. This includes designing, drafting, holding design reviews, attending customer meetings, releasing prints, and supporting production tool changes.

Brose is the world's fourth-largest family-owned automotive supplier. Our mechatronic systems for doors, seats or electric motors and drives can be found in every second new vehicle around the world today.

Over 80 manufacturers and 40 suppliers rely on our efficiency and performance. About 26,000 employees at 62 locations in 23 countries guarantee quality and innovation.

Apprentice Training

- Five year program. The first three years will be conducted at the Brose headquarters in Auburn Hills and Mott Community College in Flint. The following two years will be working full time as a designer in a product group.
- The program will include a rotation between different design groups within Brose to give you a broader experience. Your work and school schedule will be dependent on your school schedule to allow you time to study and gain work experience.
- You will be exposed and trained on multiple design related subjects. This will include blue print reading, drafting, GD & T, Catia V5, design reviews, tolerance stacks, and time management. These skills will be reinforced during your work time at Brose by using them on the job as you acquire them at school.

Prerequisites

- Successfully attained a high school diploma.
- Ability to demonstrate technical skills, teamwork skills, and communication skills.
- Having a mechanical aptitude along with excellent math and computer skills.
- Have an appreciation for an organized file management system, with detail oriented traits.
- You need to be interested in working on computers daily, and the ability to follow verbal and written instructions.

Your Career Prospects

Our systematic education and training program offers you numerous opportunities for development and growth. Upon completion of the program, you would transition to a full time designer role. At that time Brose offers a high-tech work environment and a wide range of benefits. Along with competitive performance-based compensation and health insurance, our employees also benefit from attractive social and family-oriented programs throughout our North American locations*. Our benefits packages include comprehensive medical, insurance and retirement plans. Brose also provides educational assistance and a variety of
